Subject: **Nominations for Working Group to Implement National Science, Technology and Innovation (STI) Policy-2022**

Federal Govt approved subject National STI-Policy in 2022. Now it has asked Ministry of Science & Technology (MoST) to prepare a comprehensive national implementation plan of said policy prior to its approval by the cabinet under Prime Minister for subsequent execution. MoST has created various "Working Groups (WG)" to prepare comprehensive implementation plans on related assigned policy aspects. NUTECH is tasked to create and become convener of WG on STI policy aspect of "Transforming R&D Knowledge into Commercial Exportable Products".

Being entrusted with a unique opportunity, NUTECH intends to create a WG comprising officially nominated concerned experts and professionals as members. On receiving the nominations alongwith designations and contact details this office will get official notification of WG from the office of Secretary MoST. After notification the said WG will prepare implementation plan in three (03) months' time prior to its approval by the Federal Cabinet under the Prime Minister of Pakistan.

Aforesaid in view you are requested to kindly forward nominations of your representative latest by April 17, 2023 for our further necessary action.

Your kind cooperation and facilitation will enable development of enlightening national policy implementation plan. The plan will trigger subsequent industrial and economic development of Pakistan through research & development based imports substitution and design & development of exportable value-added commercial products in future.

Looking forward for kind early response, please.

Registrar NUTECH  
(Dr Syed Adnan Qasim)
